OUR STORY

A Vision Born from Love and Determination

In 2003, four local mothers—Debbie Brown, Carol Cain, Nancy Gowing, and Nancy Tew-Seberras—faced a harsh reality: their children with developmental disabilities had aged out of the public school system, with few meaningful options ahead. Refusing to accept limited futures, they imagined something more—a place offering lifelong learning, social connection, and community inclusion.

With a Trillium Foundation grant, just two staff, and 10 participants, Crossing All Bridges Learning Centre opened its doors at 25 Bell Lane. Its mission: to empower adults with developmental challenges through dynamic programs that unlock their full potential.

In 2016, CABLC expanded with Shredding Barriers, a social enterprise offering part-time employment in secure document destruction. Today, it employs 22 individuals with diverse abilities, giving them both income and purpose.

To ensure long-term stability, the Connections Capital Campaign launched in 2018 to purchase and transform a former elementary school into a permanent home. CABLC moved to 65 Sky Acres Drive in April 2018—a bold step toward a sustainable future.

CABLC receives **no** government funding for operations. Every program, paycheck, and opportunity is made possible through tuition, grants, fundraising, and the generosity of donors like you.
